**AGAIN!!!**

**Every day, people accumulate numerous toxins in their body a variety of given ways:**

- eating fruits and vegetable grown in contaminated soil filled with heavy metals and pesticides.
- residue from drugs and medications
- yeast accumulation from your leaky intestinal walls
- drinking unfiltered water (loaded with Chlorine, Fluoride, Metals & Pesticides)
- chemicals/preservatives in foods
- and numerous others

**As you can see, these are just a few of the many ways a person can accumulate toxins.**

**Under normal conditions, your body is able to detoxify these unwanted chemicals via routes such as the LIVER, KIDNEYS, EXCRETORY SYSTEM, & LYMPHATIC SYSTEM. However, when these toxins accumulate in large quantities, it is very difficult for your body to release/remove/detoxify itself from them. When these toxins are unable to be removed from the body, they will accumulate in various places such as the:**

| <b>-UTERUS</b> | <b>-JOINTS</b> | <b>-LYMPHATICS</b> | <b>-&amp; OTHERS</b> |

**This accumulation of toxins wouldn't be a big deal if your body wasn't performing a million other jobs at one time just for you to stay alive. Unfortunately, it doesn't work that way. When you accumulate an abundance of toxins, it puts more stress on your body and it is unable to keep up with the demand and other daily processes it needs to do like eating, sleeping, breathing, and digesting. When all of this happens, your body can't release itself fully of all the toxins and they **STAY IN YOUR BODY!** When toxins accumulate over time in your body, numerous disease processes can result:**

**SO, IF SOMEONE ACCUMULATES ALL OF THESE TOXINS OVER TIME, WHAT IS A PERSON TO DO?**

**You Have 2 CHOICES From Here On:**

*1.) Continue on the path you have chosen and keep accumulating these poisons, which WILL cause sickness and disease in due time.*

**-OR-**

*2.) Find the FOUNTAIN OF YOUTH, or the closest thing to it which can rid your body of these POISONS & TOXINS, so your body can function like it is suppose to.*

**HELLO! Welcome to FLORIDA CHIROPRACTIC CLINICS,**

*We know that you can't function at 100% of your capability and health if you're body is wasting precious energy and getting fatigued while trying to detoxify itself. That is why we utilize a VERY UNIQUE machine called the "EB 305" that actually SUCKS your unwanted toxins out of your body through the PORES OF YOUR FEET! THAT'S RIGHT, Let me repeat this just in case you misread it, IT SUCKS TOXINS FROM THE PORES OF YOUR FEET!*

*It's SIMPLE AND EASY, you dip your feet in a bucket of warm water, sit back, relax, and in a matter of minutes, the crystal clear warm water that your feet are bathing in, turns to a MURKY, DISGUSTING, TOXIN FILLED SOUP..... We like to think of it as MYSTERY STEW, because it is often a mystery of how one can accumulate so many toxic substances that it fills a bucket of water and looks DISGUSTING. THERE IS NO DISPROVING IT once you see the water when you finish with the bath. IT'S SIMPLY AMAZING and you'll ask yourself..."ALL THAT JUNK THAT CAME OUT WAS IN MY BODY?"*

### **SO HOW DOES IT WORK?**

**-Your skin is the 2nd largest detoxifying system in your body after the lungs. Your feet & hands happen to have the largest pores of anywhere in the surface of your skin. When you place your feet in the warm water, the pores actually become larger.**

**-Water is nothing more than Hydrogen (H+) Ions and Oxygen (O-) Ions that carry a (+) or (-) ionic charge...BASIC SCIENCE!...Sea Salt is comprised of Sodium (Na+) and Chloride (Cl-) IONS both of which carry a (+) and (-) charge as well and is added to the water bath. A coil and magnet are then placed in the water solution along with your feet, and the coil and magnet use a direct current which creates an ionic magnetic energy field in the water. Although the patient does not feel the current, the water now possesses an electromagnetic environment. With this electromagnetic environment, a flow of appropriate good ions increase the body's energetics and the cells in your organs, muscles, joints, and body obtain more energy and release toxins that have a charge (+) or (-) which are then drawn out of the pores of your feet due to the electromagnetic environment of the water and coil.**

*It works just like a magnet and suction!*

**WHAT CAN COME OUT OF YOUR BODY?**

*Toxins from your:*    - LIVER                      -GALL BLADDER                      -KIDNEYS  
                                  -JOINTS                                      -LYMPHATICS
